Dear Ms. Wilson:

The Idaho Association of Commerce & Industry (IACI) is requesting an extension until November 21, 2014 for submitting comments on the materials presented at the October 2, 2014 meeting of the water quality fish consumption rate rulemaking. During this meeting, several topics were discussed: heritage fish consumption rates for Idaho tribes, suppression of fish consumption by Idaho residents due to actual or perceived fish contamination, and how fish consumption advisories may affect availability of fish for Idaho residents to consume.

Additional time is needed to gather information on these critical topics. We appreciate the opportunity to comment and your consideration of this extension request.

Sincerely,
