RE: Final finding of no significant impact determination for the City of Wallace
Sewer Improvements (WWG 368-2014-4)

Dear Mayor Vester:

A draft finding of no significant impact (FONSI) was issued by the Idaho Department of Environmental Quality (DEQ) on November 20, 2014 for the City of Wallace Sewer Improvements based on a careful review of the environmental information document prepared by J-U-B Engineers, Inc.

The draft FONSI was published on November 25, 2014 in the *Shoshone News-Press*, newspaper of record for the City of Wallace. No comments were received during the 30-day public comment period following publication. Therefore, the record of decision for the City of Wallace Sewer Improvements, a FONSI, is final.

This completes the environmental review of this project. Contact Katy Baker-Casile at the DEQ Coeur d'Alene Regional Office, (208) 769-4640, if you have questions regarding the project. For questions regarding the environmental review contact Mike May at (208) 373-0406 or via e-mail at Michael.May@deq.idaho.gov.

Sincerely,

TAW MLM For B.N.B.

Barry N. Burnell
Water Quality Division Administrator
