RE: Facility ID No. 777-00118, North Idaho Drilling, Incorporated,
Permit by Rule Registration Notification

Dear Mr. Lenz:

The Idaho Department of Environmental Quality (DEQ) received a Permit by Rule Registration form for a Nonmetallic Mineral Processing Plant from North Idaho Drilling, Incorporated, on June 19, 2007. The registration is for the following equipment:

Norburg 4 1/4 Cone crusher Serial No.: 41397 Capacity (T/hr): 300 Manufactured: 1972	El Jay screen Size (ft): 6 X 16 No. of Decks: 3 Serial No.: 41397 Manufactured: 1974	Caterpillar generator Output (kW): 550 Fuel Type: #2 Fuel Oil
Symonds 54" Cone crusher Serial No.: 433 Capacity (T/hr): 300 Manufactured: 1972	El Jay screen Size (ft): 5 X 16 No. of Decks: 3 Serial No.: 433 Manufactured: 1974	Caterpillar generator Output (kW): 300 Fuel Type: #2 Fuel Oil
Universal 30 X 42 crusher Serial No.: 117X173 Capacity (T/hr): 300 Manufactured: 1972		

Your registration for Permit by Rule is in our files. North Idaho Drilling purchased this facility from Coleman Construction, Incorporated on June 7, 2007. Coleman Construction was issued PBR No. P-030529 on August 28, 2003. This PBR replaces PBR No. P-030529.

We recommend that you maintain a copy of this letter and a copy of the enclosed registration form for your records.

Please be advised that the registered equipment must comply with the Rules for the Control of Nonmetallic Mineral Processing Plants in accordance with IDAPA 58.01.01.790 through 802 (Rules for the Control of Air Pollution in Idaho). You can download a copy of the rules by visiting the rules page on DEQ's web site at:

http://www.deq.idaho.gov/rules/admin_rules.cfm

In order to fully understand the compliance requirements of this permit, DEQ highly recommends that you schedule a meeting with Dan Redline, Regional Air Quality Manager, at 208-769-1422 to review and discuss the terms and conditions of this permit. Should you choose to schedule this meeting, DEQ recommends the following representatives attend the meeting: your facility's plant manager, responsible official, environmental contact, and any other staff responsible for day-to-day compliance with permit conditions.

You will be required to submit a portable equipment relocation form each time the plant is moved to a new site of operations. DEQ requires that this form be submitted at least ten days prior to relocating the equipment. A copy of the form is enclosed for your convenience. You are also required to log the hours of operation for any electrical generator used, log all fugitive dust complaints, and log all triggers that initiate fugitive dust control. A copy of each of those forms is enclosed for your convenience. If you have any questions regarding this Permit by Rule process, please contact Robert Baldwin at (208) 373-0502 or robert.baldwin@deq.idaho.gov.

Sincerely,

Mike Simon
Stationary Source Program Manager
Air Quality Division
