

10/13/2009 South Fork Boise River TAG Meeting Minutes
USFS Ranger District Office
2180 American Legion Blvd.
Mt Home, ID 83647
10:00 a.m.

In Attendance:

Julia Achabal – DEQ
Tim Kennedy – IDL
Susan Beattie – DEQ
Dan Kenney – SNF
Clyde Lay – BOR

- Introductions
- Distributed IP draft tables and text.
- IP will be added to the TMDL/5Year Review as appendix J.
- Comments to include the grazing information specifics from an IDL project that Tim is managing were discussed.
- Ron Brooks is no longer the contact or NRCS.
- Boise National Forest needs two contact names—the Forest supervisor, and the Forest hydrologist.
- Sawtooth NF had 16 or 17 data logger instruments in the Lime Creek watershed collecting temperature data for August and September. One instrument was in place in the mainstem at the MF confluence in July.
- Implementation should refer to pages 69-87 for appropriate vegetation and shade levels required for various segments of Smith and Lime Creeks.
- Lack of Shade maps (pages 80-85) will be used to target Implementation efforts.
- Dan Kenney and Tim Kennedy would like hard copies of the TMDL after the final edits for the IP are complete.
- Meeting adjourned @ 11:00 am.
