

Moose

Drool

Watershed Restoration Project Tour

Thursday, July 23, 2015

We will visit the Moose Drool Watershed Restoration Project in the Little North Fork Coeur d'Alene River headwaters with US Forest Service staff. This large restoration project is in its 3rd year of implementation and has treated nearly 100 miles of forest roads and 30 miles of stream to improve water quality and habitats.

The field trip will be in the morning, ending at lunch. Participants will need hiking shoes, water, and a lunch. Carpooling is available. Everyone is welcome, but space may be limited. Please RSVP by 7/17.
